Worksheet - Chemical ... Chemical formulae provide insight into the elements that constitute the molecules of a compound and also the ratio in which the atoms of these elements combine to form such molecules. For example, the chemical formula of water, which is  $H_2O$ , suggests that two hydrogen atoms combine with one oxygen atom to form one molecule of water. Chemical Formula of Common Compounds, Chemical reaction ... The chemical formulas for covalent compounds are referred to as molecular formulas because these compounds exist as separate, discrete molecules. Typically, a molecular formula begins with the nonmetal that is closest to the lower left corner of the periodic table, except that
